Contributors and Their Contributions

Bug	Size	Description
Benjamin Cabe (sierrawireless.com)		
240128	1.1K	p2 unable to launch after SVN check-out of ide Patch
Chris Aniszczyk (gmail.com)		
335867	7.8K	[director] Provide a 'download' only flag that will only download the artifacts, not configure them org.eclipse.equinox.p2.director.patch
Simon Archer (us.ibm.com)		
288783	1.2K	[ds] SCRCommandProvider does not format help quite right Patch to SCRCommand.java
Avatar (comarch.com)		
215761	2.4K	[aspects] org.aspectj.osgi.service.weaving shouldn't depend on org.eclipse.core.runtime simple patch making proposed change
217442	2.5K	[aspects] Eclipse-Supplement supplements more bundles than it should Patch which solves the problem
ivan.motsch@bsiag.com		
128068	17.0K	[server] Servlet Filter support for Equinox Server-Side Patches to implement servlet filters inside equinox and server-side equinox
Pradeep Balachandran (in.ibm.com)		
257654	7.4K	[engine] Cross process locking of profiles Location API addition patch
Kevin Barnes (gmail.com)		
178927	13.0K	[launcher] [plan] way to pass arguments from launcher to a running application instance Proposed Patch for equinox launcher.
263523	1.5K	[cocoa] Incorrect colors for eclipse splash screen in 3.5m5 Patch
Natalia Bartol (gmail.com)		
295744	1.3K	pluginCustomization argument should be removed from nonFrameworkArgs after being processed PluginCustomizationConsumedPatch
303936	55.6K	[planner] "Format error in file" during all installation of new features 3.4_P2director_with_DependencyHelper (improved)
Troy Bishop (ca.ibm.com)		

258705	72.1K	Implement tracing api Updated patch - fixes a few bugs and includes John's modifications
267683	31.1K	Enhancements to the tracing framework Support verbose tracing
275768	1.3K	Spelling mistakes in org.eclipse.osgi.service.debug.DebugOptionsListener Javadoc patch fixing spelling mistakes
285292	1.0K	Trace fails to determine class/method/line number when using a tracing class possible solution
285292	3.6K	Trace fails to determine class/method/line number when using a tracing class test patch
285341	38.8K	Need test coverage for DebugTrace possible solution
300911	4.3K	Disabling tracing does not notify listeners additional test coverage
301735	9.4K	Tracing: pipes in messages result in corrupt trace file possible patch for this problem.
302586	18.9K	Consider adding DebugOptions.set/getOptions methods patch + tests
Joerg-Christian Boehme (inka-kag.de)		
246757	3.1K	[ds] Compliance with section 112.3.4 and 112.6 of R4.1 spec Patch
Tim Bond (softwareag.com)		
309059	9.4K	Eclipse foundation certificate not trusted by latest Oracle VMs Ignore root CA in signed jar, find in cacerts
James Branigan (bandxi.com)		
282580	3.5K	HttpConfiguration minThreads and maxThreads values require ConfigAdmin Patch to add -D for thread pool size to HttpConfiguration
Karel Brezina (cloudsmith.com)		
262158	994	StringIndexOutOfBoundsException in SimpleProfileRegistry.unescape(String) Patch for bug in SimpleProfileRegistry.unescape(String)
Alban Browaeys (yahoo.com)		
251357	1.6K	[director] Projector expandNormalRequirement concatenation double speedup

		Speedup string concatenation
Ian Bull (eclipsesource.com)		
204060	11.2K	[publisher] absence of -publishArtifacts not honored properly Updated patch
223991	2.1K	[ui] Drag n' Drop does not work on certain platforms o.e.e.p2.ui patch
244421	30.3K	[publisher] verify translations working with the publisher updated patch
244813	3.6K	Files Missing in update jars Updated test cases (o.e.e.p2.tests)
248509	11.2K	[doc] Provide documentation for p2 publisher bundle Publisher docs
248509	7.4K	[doc] Provide documentation for p2 publisher bundle Updated patch
248509	1.7K	[doc] Provide documentation for p2 publisher bundle Updated Patch
248509	1.4K	[doc] Provide documentation for p2 publisher bundle Adds links to other ways of creating repos (export and PDE Build)
248509	2.0K	[doc] Provide documentation for p2 publisher bundle Updates the links to point to the new PDE / p2 docs
251620	2.9K	[repo] [update] UpdateSite (Repository) throwing noisy exceptions JUnit test that shows the problem
256359	754.3K	[metadata] Consider interfaces for Metadata classes Updated Patch, Dec 29
259793	11.7K	SPIMetadataRepo test failure fix for test failure
259796	1.3K	Spec .equals() on IRequirementChange Patch for proper .equals() spec
259800	12.6K	[metadata] Metadata interfaces should have a notice indicating that clients should not subclass Updated notice
260012	74.2K	[Query] Cannot properly compose queries Updated Patch
260066	127.8K	[publisher] Generate product from .product file updated patch -- fixes broken test cases
260752	14.2K	[query] pre and post perform hooks for match query iteration updated patch
260950	106.1K	[ui] Remove the custom collectors from the UI

		Updated patch
261278	995	IUPropertyUtils should not short circuit the collector IUPropertyUtils fix
261278	6.3K	IUPropertyUtils should not short circuit the collector Updated test (fixed a typo)
261403	29.4K	[query] Add compound queryable Compound Queryable that does not support transitive queries
261460	35.2K	[director] structure LatestIUVersionCollector as a query Updated Patch
262109	13.0K	[metadata] create factory for Copyright and License Adds factory methods for License and Copyright
262696	20.3K	[ui] No "more" details available on updates Updated Patch
264266	12.0K	[publisher] complete support for version advice Updated patch
264739	17.5K	[publisher] move the root files under the feature group Updated Patch
265054	1.6K	[publisher] Concurrent modification exception in Executable descriptor Fix
265578	3.8K	director cannot find IU if more than one repo specified Fix
267282	7.6K	[Publisher] Features should always be "unzipped" Updated path (with test case)
268695	5.8K	[publisher] Category not exported from update wizard with IBM 1.6 VM o.e.e.p2.updateSite SiteFeature patch
268695	4.3K	[publisher] Category not exported from update wizard with IBM 1.6 VM Patch to change siteFeature to use getUrl instead of this.url
268695	5.5K	[publisher] Category not exported from update wizard with IBM 1.6 VM Patch that doesn't use URL#Equals
271369	953	[doc] Clearly state that the publisher is the new way to go Note saying that the generator is deprecated
272362	22.6K	[publisher] Configure the update site parser to take a filename updated patch (again)
272573	1.6K	testZipDynamicPathComputer test fails on Linux o.e.e.p2.core patch for FileUtils

273177	21.6K	[publisher] No metadata generated for a product license publisher patch for product license
273747	10.4K	[publisher] Start level specified in the product are ignored Updated patch
273961	1.2K	[publisher] After exporting, a product with a start level of "default" won't start Updated patch
274193	8.3K	[publisher] ConfigCUsAction creates incorrect entries when used with multiple products attaching my patch again
274219	998	Abstract simple configurator test looks for Manifest.MF instead of MANIFEST.MF Changes Manifest to MANIFEST
274612	1.0K	[publisher] Category description not translated in site parser Checks if the description string needs to be translated
275040	4.2K	Add translation tests for feature.jar elements Tests to ensure that string on the feature jar are also translated
275369	1.2K	[publisher] NPE when no executable feature specified on the ProductPublisher Application Checks for null before creating a new File object
277923	3.3K	[publisher] CUs generated with wrong version on host requirement Publisher Testcase
Pierre Carlson (us.ibm.com)		
337732	846	Service registrations should be cleared on bundle stop (org.eclipse.equinox.http.servlet) Proposed patch
Andrew Cattle (ca.ibm.com)		
208601	105.7K	Composite repositories Updated again to reflect latest changes in HEAD
235683	6.4K	Mirroring application does not preseve target repository format Adds tests to ensure compressed properties are honoured
235683	7.0K	Mirroring application does not preseve target repository format Required test data for test cases
247214	1.0K	P2 mirroring cannot merge two repositories Added code to look for "-append" argue,emt (patch version)
247664	5.9K	Repositories remain open after MirrorApplication has finished Checks if a repository is already open and removes repositories accordingly after application has finished
247889	1.7K	MirrorApplication does not handle "-append" arguement consistently

		Added code to handle "-append" argument
248045	29.9K	Director creates metadata directory with default content.xml if not existing Updated fix and more tests
248056	0	[mirror] Test to ensure we are not always removing repositories Updated tests
248144	49.5K	Add automated tests for MirrorApplications test data for MirrorAppliaction test cases
248144	67.3K	Add automated tests for MirrorApplications Newest version of MirrorApplication tests
248144	6.9K	Add automated tests for MirrorApplications Additional test data required for refactored test cases
248267	11.0K	[mirror] Validate arguments Added functionality and tests
249353	29.7K	[mirror] When the target repo is created, copy the properties modified both MirrorApplication.javas. Added test cases.
249996	345.1K	[artifact] MirrorApplication does not mirror properly test data for patch
249996	10.5K	[artifact] MirrorApplication does not mirror properly Updated fixed test cases
250164	1.5K	[artifactrepo] ProcessingStepHandler does not read processing steps properly Changes how arguments are added to processing steps
250164	2.9K	[artifactrepo] ProcessingStepHandler does not read processing steps properly Test to verify processing steps are carried out correctly
250527	8.0K	[mirror] Stack traces when running the mirroring tests Stops stack tracing from printing, uses IStatus returned from getRawArtifact
250527	2.8K	[mirror] Stack traces when running the mirroring tests Adds test to test precense of new arguments
250527	1.9K	[mirror] Stack traces when running the mirroring tests Adds test case to ensure ingoreErrors is respected
254747	0	[mirror] MirrorApplication should append by default Resynch fo previous patch
254748	5.3K	[mirror] Doc should be updated to reflect new arguments Updates arguments to reflect receten changes
255284	18.5K	Additional composite repository tests Adds additional test cases

255401	2.8K	Parser does not handle duplicate elements properly Adds test case for a duplicate element
255678	14.6K	Mirroring application should compare if artifact already exists Adds comparator extension point
255678	15.6K	Mirroring application should compare if artifact already exists Improves verification for test cases in previous patch
255678	818	Mirroring application should compare if artifact already exists Adds line missing from previous patch
255685	12.0K	Mirroring to use existing repository as a baseline Adds baseline mirroring functionality
255691	15.5K	[repo] Composite Repository loading child repositories modifies child's xml Reimplemented using John's suggestions
255691	3.5K	[repo] Composite Repository loading child repositories modifies child's xml Missing Testcase
256283	10.5K	[composite repo] CompositeArtifactRepository should be able to verify its sanity Reflects latest changes in HEAD
256905	5.4K	[tests] Abuse of Sytem.out.println Disables verbose logging for Mirror Application Tests
256909	11.4K	P2 mirrorApplication should have an option to set the local mirror name Also users to set destination repository name
257230	2.2K	[repo] [mirror] getArtifact and getRawArtifact should include code for retrying in the event of download errors Much better implementation
257390	9.1K	[composite repo] "Good" composite repo examples have mistakes Adds tests for loading
257929	1.1K	[mirror] Artifact Mirror Application logs OK statuses Adds isOK() check before adding status to multistatus
258166	5.0K	[composite repo] CompositeArtifactRepository.getOutputStream returns null Throws UnsupportedOperationException when getOutputStream is called on a CAR
258173	6.0K	[artifact] AbstractArtifactRepository#getOutputStream returns null Changes getOutputStream to abstract method. Implements where appropriate.
258857	2.7K	[mirror] Artifact Mirror Application should log ERRORS regardless of value of verbose

		Unrelated changes have been omitted
259111	4.1K	[mirror] Need additional tests for download retrying Improves previous patch getArtifactKeys and getArtifactDescriptors
259112	11.4K	[mirror] Need additional tests for verbose logging Reimplements previous patches after resynching
Yury Chernikov (ychernikov.info)		
271447	5.2K	[ui] Bad layout in 'Install available software' dialog patch
Christopher Daniel (pl.ibm.com)		
259241	4.0K	FileLocator .toFileURL returns null if there is no appropriate access rights Fix proposition
321202	2.7K	[ui] [admin] - New profile has label 'flavour' which destroys the layout The patch
Sebastian Davids (gmx.de)		
169319	1.7K	[Patch][log] org.eclipse.equinox.log.ExtendedLogService.getService() returned a service object that is not an instance of the service class <missing argument> fix
169320	3.2K	[Patch][log] java.lang.StackOverflowError in ExtendedLogServiceImpl fix
Achim Demelt (googlemail.com)		
289480	1.3K	Concurrency issues in XMLParser.acquireXMLParsing() Patch for synchronized creation of the ServiceTracker
Alin Dreghiciu (gmail.com)		
303611	1.4K	[repository] NumberFormatException when severity attribute not specified in update descriptor Proposed Patch
307471	14.0K	None of fragment related tests are actually running Proposed patch
308038	6.7K	CleanupUnzip does not cleanup all directories Proposed patch & unit tests
David Dubrow (nokia.com)		
276356	1.6K	[ui] check the wizard and page completion logic for AcceptLicensesWizardPage call updateButtons in asyncExec as proposed stopgap measure
313412	1.2K	[discovery] DiscoveryInstallOperation can install older version of a feature over a newer one

		proposed fix
Andrew Eisenberg (eisenberg.as)		
255122	1.0K	[aspects] p2.inf for equinox aspects p2.inf for a p2 installer
258136	1.0K	[aspects] using package versions on import-package in manifests Adding package version requirements to Import-Package in manifest
261089	1.2K	[aspects] Exception thrown at startup patch that adds the appropriate null check
270010	4.7K	[aspects] Small changes to Equinox Aspects the patch
Jarek Gawor (gmail.com)		
341963	846	[metatype] StringIndexOutOfBoundsException when description or name attributes are an empty string Patch for this issue.
David Green (tasktop.com)		
313003	1.3K	[discovery] SiteVerifier does not consider composite repositories trivial patch
313585	946	FileReader should check for ECF UserCancelledException and throw an IOException with cause OperationCancelledException patch to wrap UserCancelledException in an OperationCancelledException
Helmut J. Haigermoser (windriver.com)		
316916	10.8K	[repository] loading children of a composite repo is not covered by progress monitors proposed patch to get progress from loading the children
340352	4.1K	[performance] [scalability] copying local artifacts has an unnecessary overhead of 0.1s Proposed change to get performance up
Thomas Hallgren (tada.se)		
233699	39.7K	Add support for version types other than OSGi Implementation of Omni Version, take 5
261786	15.5K	Omni version breaks the metadata Generator Patched VersionRange.java, take 2
262118	15.5K	omni VersionRange NPE in intersects Patched VersionRange.java (with correct encoding)
264674	4.0K	[Version] String representation of version format is incorrect Patch that adds a test that provokes the problem
264674	1.1K	[Version] String representation of version format is incorrect

		Patch that fixes the VersionFormat.toString()
265431	1.1K	[Version] IllegalArgumentException when parsing raw GTEQUAL ranges with format Test that provokes the bug
265431	961	[Version] IllegalArgumentException when parsing raw GTEQUAL ranges with format Patch for the VersionParser that fixes the problem
266047	2.6K	[publisher] BundleAction does not add ArtifactDescriptor entries for .pack.gz files Up to date patch to fix the problem.
266047	5.2K	[publisher] BundleAction does not add ArtifactDescriptor entries for .pack.gz files Up to date patch to BundleActionTest
266081	3.6K	[Version] More consistent handling of MIN/MAX versions in ranges Tests that provokes the problem
266081	5.7K	[Version] More consistent handling of MIN/MAX versions in ranges Remedy for the problems
266816	2.8K	[publisher] ProductFile does not close its source file. Patch to ensure that the source file is closed.
266859	26.4K	FeatureParser should be split in two. One for the folder/jar and one for the feature manifest Patch that implements the proposed split.
266887	989	[Version] Versions created with NULL or an empty string yields NPE when used Testcase that provokes the NPE
266946	6.2K	[Version] The FormatRangeTest class is never run. Patch that corrects the FormatRangeTest and adds it to the AllTests suite
268138	29.3K	[director] Create a new director application to offer more flexibility and address issues non addressable with the previous one Tests for the new director app.
268138	36.2K	[director] Create a new director application to offer more flexibility and address issues non addressable with the previous one A replacement with some bugs fixed
268659	1.8K	[publisher] Make VersionedName usable as a key Updated patch where both constructors replace null with emptyVersion
269170	2.6K	NPE in BundlesAction when using update.configurator without simpleconfigurator Patch to correct the problem
